PROFILE SUMMARY

Currently working as a **BI /Integration Specialist and Solution Architect** and having about overall **15+ years** of experience in Information Technology (IT). Recent system implementation done by me were SSIS and Power BI Server. My current expertise are **Data Designing, Business Intelligence and Data Analysis, Report development, Data Integration (ETL) and users support for BS applications** for about 2.8 years in the Council.

Prior to the Council, I worked for a capital management project as a **Data Architect & Specialist**. I also led Tableau BI project as a **Tableau BI Architect** in my other previous engagements in publicis.sapient. I also worked for an **energy/commodity** project. I have acquired over the years a comprehensive technical understanding of designing solutions, integration, database design and methodology from multiple perspectives and hands-on experience in designing, developing, and implementing Reporting systems, Data warehouse, and Business Intelligence solutions.
